### Husqvarna FS400LV Push Saw

The FS400LV is a low cost high value petrol push saw capable of cutting upto 162mm deep through concrete and asphalt.

With an integrated, large capacity water tank, balanced lifting hook, adjustable handle, and precise depth control via a hand wheel, the FS400LV is a versatile saw, packed full of features for a very low cost.

The unit is also exceptionally well balanced giving it stability and mobility while cutting.
