## Loop Ties

### DESCRIPTION

Loop ties are used to secure reinforcing bar and mesh prior to concrete placement. The loop tie is made from the same wire as standard tie wire but features a preformed loop at each end of the wire. The loop tie is designed to be folded in a "U" shape around the reinforcing so both loops are aligned allowing a twist tool or twitcher to quickly form the tie.

### FEATURES

- No Specialist skills required to use
- Wide variety of uses
- Available in a range of sizes
- Lightly oiled to prevent corrosion

Code	Description	Bundles / Pack	Bundles / Pallet
