### Husqvarna K760 Cut-N-Break

The K760 cut-n-break saw is a unique twin bladed saw which can cut up to 400mm deep in concrete and masonry.

The two high speed blades make a core in the saw cut which can easily be broken off using the accompanying breaking tool. Easily work your way through the material at a very low diamond tool and maintenance cost.

Saw comes with two blades and a breaking tool.
