Husqvarna FS410D Push Saw

The FS410D is a versatile and compact diesel powered push saw for small to mid-sized service and repair jobs. With a 20" blade fitted, the saw can cut through 189mm of concrete, masonry or asphalt.

The saw has been designed with a clear focus around user comfort and productivity with features such as: height adjustable handle bar, split blade guard simple adjustment, anti vibration mounts, IntelliSeal blade shaft for a minimum of 250 maintenance free hours without daily greasing of bearings just to name a few.

The diesel engine is also perfect for cutting in confined areas where petrol engines are not permitted.
