to use. Great comfort.

Lower
running costs.

High driving performance.

Power.*1

Suitable to drive ring shank nails with HiKOKI's highly efficient Brushless Motor and unique air drive system.

Number of nails per charge.*2

NR1890DBCL

5.0Ah Li-ion Up to 700 nails

3.0Ah Li-ion Up to 400 nails

NT1865DBAL

5.0Ah Li-ion Up to 1,850 nails

3.0Ah Li-ion Up to 1,100 nails

NT1865DBSL

5.0Ah Li-ion Up to 2,450 nails

3.0Ah Li-ion Up to 1,500 nails

NT1850DBSL

5.0Ah Li-ion Up to 2,600 nails

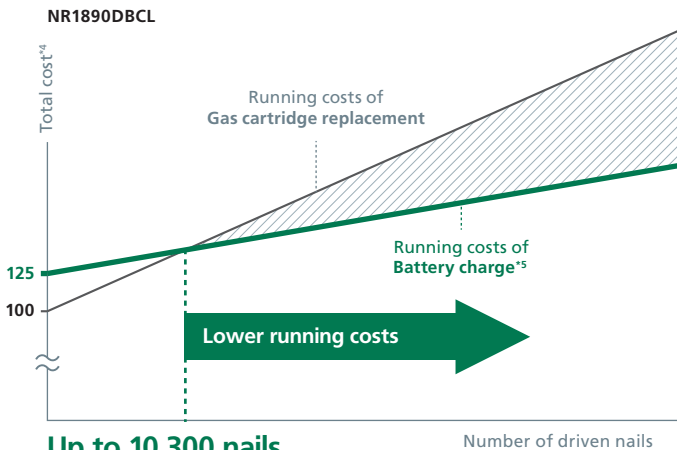

3.0Ah Li-ion Up to 1,650 nails

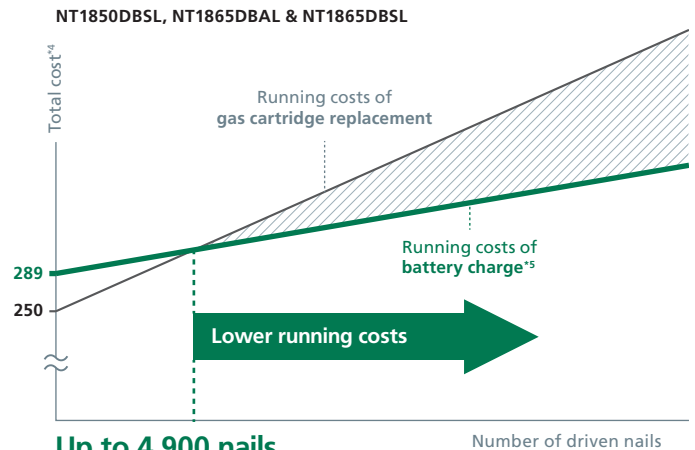

Lower running costs.

No costs of gas cartridges means that the more the tool is used, the more cost-effective it will be.

Comparison of total cost.*3

- HiKOKI cordless framing nailer
- Competitor's gas framing nailer

- HiKOKI brad nailer
- Competitor's brad nailer

Increasing power, performance and driving speed.

Due to the air drive system, an air-filled high-pressure chamber causes the movement to drive each nail powerfully into wood.

- 1 Compressed air chamber.
- 2 Driver blade with rack design.

Brushless Motor. Less maintenance.

No gas means no need of regular cleanings of a combustion chamber that a gas nailer would require. The Brushless Motor is also low-maintenance due to the fact there are no wearing parts.

Battery compatibility.

The battery is compatible with all HiKOKI 18V slide-type lithium-ion cordless tools.

Integrated operation panel with push-button switches.

Allows users to select between full sequential mode or contact mode, and check remaining battery power.

Dry-fire lockout.

Prevents nailer activation when the nail count is low. (Except for NT1850DBSL)

Tool-less depth of drive adjustment.

Users can adjust the depth of drive.

¹ In comparison with the NR90GC2 and NR90GR2 gas framing nailers. ² It may vary depending on environmental and operating conditions such as wood type, nail type, climate, battery charge etc. ³ Without the cost of nails. ⁴ The numbers of total cost are relative values when the initial cost of competitor's gas framing nailer is indexed at 100. ⁵ Electricity cost may vary depending on the area.

MULTI VOLT battery

Same size. More power.

1,080W high power output.

The MULTI VOLT battery, paired with MULTI VOLT 36V tools, offers unprecedented cordless power over 1,000W.

Compact & lightweight.

The MULTI VOLT battery has almost the same size and weight as an 18V battery (BSL1850/BSL1860), and produces the power of a 36V.

Automatic voltage change between 18V and 36V.

The MULTI VOLT battery is designed for full compatibility with the current 18V slide range, and automatically changes between 2 voltages, 36V - 2.5Ah and 18V - 5.0Ah, according to the tool used.
