Weight	135kg
Dimensions	1100mm x 800mm x 1000mm

Aussie Pumps Raptor - 7300 PSI Pressure Washer

The Aussie Raptor is slow speed, high pressure 7300 PSI pressure washer. The Gearbox Driven pump means the pump runs at a slow speed ensuring longer pump life and making it suitable for continuous cleaning applications. The Raptor will make short work of most heavy duty cleaning applications with its 35HP engine, slow speed pump and a large top mounted fueltank for extended run times. The 4-wheeled, stainless steel frame is well balanced and easy to move around site.
