Standard Combination Chairs

DESCRIPTION

Combination bar chairs are the most common type of spacer due to their functionality. Combination chairs have two height settings and can be simply adjusted by turning the chair 90°.

They also feature a clip-top on the chair means the chairs can be clipped on to the mesh while flat on the ground; when the mesh is lifted, the chairs swing into place.

FEATURES & BENEFITS

- Made in Australia
- Complies to AS/NZS2425:2015
- Clip top makes for easy positioning

ESTIMATING & SIZES

Set-Up combination bar chairs are packed in bags of 100 Chairs. Typically bar chairs are spaced at one chair per m2.

Code	Concrete Cover	Pack	Packs/Pallet
BC25/40C	25mm / 40mm	100	50
BC50/65C	50mm / 65mm	100	60
BC75/90C	75mm / 90mm	100	60
BC75/90P*	75mm / 90mm	100	40
BC85/100C	85mm / 100mm	100	60

* Pool bar chairs are made from a softer plastic to enable stapling to formwork however, they don't have the clip top mechanism. They feature a wide throat to enable 2 x 16mm bars to be supported.

DISCLAIMER

Set-Up products are manufactured to the highest quality, and if used in the correct applications and in accordance with all directions, will produce quality and consistent results. However Allcon Group Pty Ltd accepts no responsibility for inappropriate usage or faulty workmanship by the end user.
