Fast Clip Mesh Chairs

DESCRIPTION

Deck rail chairs are also called continuous spacers and are used to support and space reinforcing in formwork applications. The rail features sets of vertical legs every 75mm providing strength and stability. Clip together Male and Female connections are located at the end of the rail enabling rails to be connected in a continuous length.

Bases are also available to support deck rails on slab on ground situations.

Deck Rail

Deck Rail Base

FEATURES & BENEFITS

- Made in Australia
- Complies to AS/NZS2425:2015
- Simple clip together sections to enable a continuous rail
- Pointed tips on legs create minimal contact to formwork

ESTIMATING & SIZES

Set-Up deck rail chairs are packed in bags of 25 chairs.
