### Forza HRT888 46" Ride-On Trowel Machine

The Forza HRT888 is the ultimate panning and finishing machine. Powered by a 35HP Kubota turbo diesel engine, the HRT888 features a torque converter clutch and heavy duty gearboxes making it a panning and finishing powerhouse.

This beast also has all the creature comforts to go along with it. The HRT888 features hydraulically assisted joystick controls do the hard work for you, and even has a cruise control, 12V outlets to charge your phone and a drink bottle holders. The elevated operator position gives great line of site across the pour making it easier to identify any potential flaws in the finish.

# FIVE REASONS TO BUY FORZA

## Over 10 years in the making...

Our forza machines are not just another off the shelf, they are the result of many years of testing and tweaking and we know what works and what doesn't. And... if you think there is a way to make it better, let us know and it may find its way onto the next model.

## We'll modify the machine to fit your needs...

Need it to spin faster? Contrary to popular belief, putting a bigger engine on it does not make it go faster. We can fit a speed up kit to any of our Forza trowel machines to achieve this.

Need it to go slower? We can do that too!

## We don't do light duty!

We've developed these machines to be tough and reliable. From the renowned Honda or Hatz engine, the heavy duty gearbox and base, the rack and pinion throttle lever and the folded single piece lifting hook, our machines live up to their name - Forza - Italian for Strength and Power.

## The little green tag...

Every machine is run and tested before it leaves our doors. Once it has been tested it is tagged ready for use. That gives you peace of mind that the machine is right ready to be put to work.

## We service what we sell!

With a fully functioning workshop, permanently staffed with a fitter and turner and fully qualified mechanic, we stand by and service what we sell. With fast turn-around times on standard repairs and servicing, you'll have your machine back in no time.
