

COMPACTION LP9505

 Husqvarna®

Model	LP9505
Engine	Kubota D1105
Fuel Type	Diesel
Vibration Frequency	42Hz
Travel Speed	2.7km/h
Weight	1675kg
Drum Width	650mm
Dimensions (LxWxH)	1856mm x 850mm x 1369mm

Husqvarna LP9505 Remote Controlled Articulated Trench Roller

The LP9505 is a powerful, easy-to-use trench compactor, delivering superb productivity in demanding trench compaction jobs. Due to the high operating weight and ultimate traction, it is suitable for all kinds of soils (wet or dry) but is especially suited for cohesive materials like clay and silt. The reliable, fuel-efficient Kubota diesel engine provides class-leading power, while the articulated steering allows the compactor to turn corners without digging up the soil.

Radio remote control operation is delivered via a lightweight and durable remote control unit for smooth and safe operation. The wide drums and low centre of gravity deliver excellent stability and driveability further enhancing safety.
