Travel Speed	11.5m/min
Weight	110kg
Dimensions (LxWxH)	700mm x 350mm x 1050mm

Husqvarna LT8005 Rammer

The LT8005 is Husqvarna's heaviest rammer with the widest foot. The Hatz diesel powered unit is well-balanced, powerful and offers deep compaction thanks to its high centrifugal force and weight. The LT8005 is ideal for compaction of trenches and pits in civil and infrastructure projects where petrol powered units are prohibited.
