Model	PTM30FT
Rotor Diameter	30" (750mm)
Engine	GX35
Blades	4 x 30" Blades
Rotor Speed	25-70 RPM
Weight	25kg

Flextool 30" PortaTrowel

The Flextool PortaTrowel is a lightweight and portable trowel machine that enables early finishing of concrete and improves operator safety. Unlike other pole trowel machines, the PortaTrowel features a blade pitch function of up to 25 degrees and directional control by simply twisting the extension pole.

The robust gearbox, light weight design and the reliable Honda engine, make this unit perfect for finishing driveways, pathways, patios or even garage and shed slabs.
