

UV3628DA(H4Z)

Concrete Vibrator

36V Brushless Concrete Vibrator

Barcode 4966376337620

NEW

Brushless Motor

Trigger switch with stopper

Light and easy to use

Specifications

Vibrating rod diameter		28mm
Vibrating rod length		824mm
No-load vibration frequency	Normal	12,000 min ⁻¹
	Power	15,200 min ⁻¹
Weight		4.2kg
Dimensions (L x H)		1,045 x 224mm

Features

- Two power mode selection (normal/power)
- Three dust protective cover (switch stopper, switch and battery)
- Flexible shaft assembly
- Ergonomically designed grip handle

Selling Points

- High vibration frequency
- Eliminates air bubbles efficiently
- Reduces working time by up to 40%

Applications

Designed to remove trapped air out of concrete before it sets. Ideal for use across retaining walls, concrete sleepers, stock troughs, fence posts, water tanks, precast pits, stairs, kerbing and large concrete surfaces.
