Weight	392kg

Husqvarna CRT36 Ride On Trowel

The Husqvarna CRT36 ride on trowel is an extremely versatile machine for both panning and finishing concrete. The 22HP engine delivers power through a unique torque convertor clutch providing an incredible RPM range of 25-165RPM. The built in wheel kit makes it simple to change blades or pans without lifting equipment and manouvre around site. If required, lifting is safe and simple thanks to the two balanced lifting hooks either side of the seat.

Other standard features include; lighting kit, central bearing grease point, easy access to battery compartment, retardant sprayers, adjustable seat and integrated trowel holder.
