

PETROL GENERATOR

12.0kVA

Powerlite

Model	GPL120
Industry Rating	12.0kVA
Real Power	10000 Watts
Engine	Honda GX660
Fuel	Unleaded
Tank Capacity	12.5L
Fuel Usage	4.7L/Hour
Weight	107kg
Outlets	2 x 15A
Dimensions (LxWxH)	960mm x 500mm x 600mm

Powerlite 12.0kVA Petrol Generator

The 10,000W Petrol Powerlite Generator is powered by a 25hp Honda engine with electric start. Manufactured in Australia the GPL120 generator is mounted in a powder coated, heavy-duty roll frame and the Honda engine is paired with a Mecc Alte Alternator, giving it an industry rating of 12. This reliable generator fully complies to the Australian Standards and holds 12.5 litres of fuel and when being used at maximum power uses 4.7 litres of fuel per hour.

This generator is designed for powering large construction equipment; from circular saws and jack hammers right up to large inverter welders. They can also be optionally fitted with a wheel kit and handles for transportation and a center lift bar for safe lifting.
