Lance	RL56 500 Bar Pro Gun and 800 Lance
Weight	250kg
Dimensions	1100mm x 800mm x 1030mm

Aussie Pumps Predator A - 5000 PSI Pressure Washer

The Aussie Predator A is a 5000PSI high pressure blaster for industrial, civil and mining applications. The power delivered by the Kohler 23HP diesel engine is transferred to the Italian Bertolini triplex pump via a reduction gearbox. This means the pump is generating 5000psi at low RPM making it ideal for commercial use for long periods of time.

This unit also comes with electric start with battery isolation, emergency shut-off, hi-viz tape, lifting hook and on-board fire extinguisher for full mine spec compliance.

Being 5000PSI, this unit is a Class A pressure washer meaning no there's no RTO operator certification required. If you're looking for an Australian Made, Mine Spec high pressure blaster that will tick all the boxes, the Aussie Predator A is the perfect choice
