

CONCRETE CUTTING

KI PACE SAW

Husqvarna®

reddot winner 2022

Model	K1P14
Max Cutting Depth	145mm
Max Blade Size	350mm
Voltage	94V
Weight (Without Battery)	7.4kg
Dimensions (LxWxH)	648mm x 233mm x 423mm

Husqvarna K1 Pace Battery Power Cutter

The K1 Pace is Husqvarna's first full size battery power cutter and is currently the lightest 14" battery power cutter and has the longest run time of any full size battery cutter. Husqvarna developed the new PACE battery system for this unit and they've managed to achieve some astounding run times - the B750X has approximately the same run time as a tank of fuel on a regular saw.

Husqvarna have also solved one of the biggest safety issues with the introduction of the X-Halt™ blade brake function. If the blade begins to jam, the saw instantly recognises this and stops the blade in a fraction of a second preventing the saw from kicking back into the operator.

The K1 Pace has the power and performance you expect from equivalent petrol powered cutters without the associated risks and maintenance costs.

CONCRETE CUTTING

KI PACE SAW

 Husqvarna®

Benefits of Battery

- No Fuel Mixing
- Easy to start
- Low maintenance
- No Fumes / Emissions
- Reduced Noise

Under cut bolt

Remove this stop bolt to move the guard right out of the way for undercutting concrete pipes

Integrated water system

Standard water system for wet cutting.

Built-In Connectivity

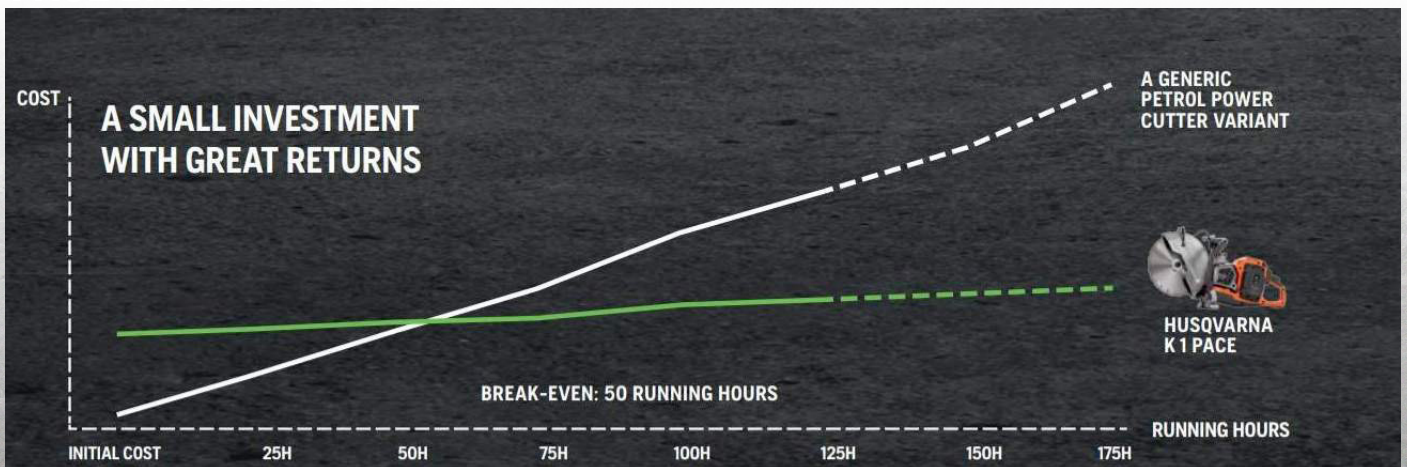

Connect to Husqvarna Fleet Services where you can monitor location, run time and receive wireless firmware updates.

Vacuum Sled Accessory

Connect a vacuum sled for dry cutting with integrated depth control

On-Board 20mm Blade Bush

Remove this bolt to reveal a 20mm blade bush so you can use blades with a 20mm bore.

PACE BATTERIES & CHARGERS

B380X
Code: PHU970494101
Size: 375 Wh
Charger: C900X
Recharge Time: 45mins

The B380X is a good choice for shorter running cycles. The light weight of the battery contributes to easier carrying and transport.

B750X
Code: PHU970494201
Size: 750 Wh
Charger: C1800X
Recharge Time: 45mins

The B750x is best suited for longer running cycles and more demanding applications.

C900X
Code: PHU970495005
Size: 900 W
Recharge Time:
 B380X: 45mins
 B750X: 75mins

Optimised for B380X

C1800X
Code: PHU970495105
Size: 1800 W
Recharge Time:
 B380X: 45mins
 B750X: 45mins

Optimised for B750X

PACE BLADES

The K1 PACE power cutter develops higher torque at lower RPM which means the blade core and segments can be thinner. This improves cutting speed and battery life whilst lowering the weight of the blade. That said, conventional gas power cutter blades can be used with the K1 PACE however they will not be optimised for cutting performance and battery life.

*PACE blades can only be used with the K1 PACE and should not be used on a regular petrol power cutter.

TACTI-CUT BAT

Great value, low cost blade for occasional use or initial cutting.

Material: Cured Concrete

ELITE-CUT BAT

High quality Z-edge Exo grit diamond for intensive use and extended blade life.

Material: Cured Concrete

VARI CUT FR3

Has one layer of vacuum brazed diamond for fast cutting of a wide range of materials

Material: Tile, Stone, Rebar Fibre Board, PVC & more

KI PACE SAW

 Husqvarna®

KI PACE VACUUM SLED

The K1 Pace vacuum sled and is the perfect accessory for dust collection when dry cutting. With a suitable dust collector or vacuum connected, the K1 PACE vacuum sled travels right behind the blade capturing and extracting the dust at the point of cutting. The sled connects to the saw in seconds and sits either side of the blade ensuring maximum efficiency. The sled also includes a depth stop adjustment so you can set the depth of your cut.

KI PACE STARTER PACKAGES

B380X KIT

Kit Contains:

- 1 x K1 PACE 14" Power Cutter
- 2 x B380X 375Wh PACE Batteries
- 1 x C900X 900W Charger
- 1 x Tacti-cut 14" PACE Blade

K1P14K-B380

\$4350+GST

B750X KIT

Kit Contains:

- 1 x K1 PACE 14" Power Cutter
- 2 x B750X 750Wh PACE Batteries
- 1 x C1800X 1800W Charger
- 1 x Tacti-cut 14" PACE Blade
