

TROWEL MACHINE

MSP475 46" RIDER

Powered By
Kubota

Model	MSP475
Rotor Diameter	46" (1200mm)
Panning Width	2570mm
Engine	Kubota WG1605 (57HP)
Fuel	Petrol
Blades	10 x 46" (TBB46C, TBB46F)
Rotor Speed	170 RPM
Steering	Hydraulic Power Steering
Weight	794kg

Allen MSP475 46" Ride-on Trowel Machine

Designed specifically for the high volume contractor, the MSP475 is the most powerful machine in the MSP range. The 57HP liquid cooled Kubota petrol engine sends power through a torque converter clutch to two super heavy duty gearboxes powering the 5-blade 46" rotors. The rider produces excellent torque even at high rotor speeds, which makes it excellent for both panning and finishing.

The unit also has a digital LED display for accurate RPM, temperature and hour readings as well as a large 37L fuel tank for maximum run time. The MSP475 also has all the creature comforts of hydraulic power steering, push button start, foot pedal controlled retardant sprayers, 12V outlet and six LED lights for those early morning or late night jobs.
