DE110 VACUUM

 Husqvarna®

Model	DE110
Motor	1.1kW Single Phase 230v
Vacuum Suction	200mbar
Filter	H-Class HEPA (Certified to EN1822)
Weight	25kg
Dimensions (LxWxH)	670 x 400 x 1000mm

Husqvarna DE110 230V Dust Extractor

The DE110 is Husqvarna's next generation of dust extractors and is equipped with the latest HMI technology, e-flow system and the legendary Longopac® bag system. This H-class extractor is ideal for use with smaller hand-held cutting, drilling and grinding equipment. The HMI and E-flow system work together to monitor performance and automatically adjust the airflow ensuring stable air flow, reducing energy consumption and extending filter life.

The DE110 is compact, sturdy and compliant with the high safety standards making it ideal all rounder for general construction applications. It also features embedded connectivity that enables monitoring of location, run-time, service and filter status along with other usage data.
