## Canvacon 7000E

### DESCRIPTION

Canvacon is a heavy duty polyfabric encapsulated in a stabilised polyethylene coating. Whilst it is typically used in the industrial and agricultural industries, Canvacon can also be used as a heavy duty vapour barrier or slab underlayment. The high film thickness and puncture resistance of canvacon makes it ideal for use over contaminated soils or where high loads are expected during slab construction.

### FEATURES

- Heavy duty fabric with UV Stabilised coating for long service life
- 3 Year UV Warranty and 3 Year delamination warranty on fabric
- 100% recyclable material
- 100% lead and phthalate free
- High tensile and burst strength.

### ATTRIBUTES

- Nominal Thickness: 0.63mm
- Fabric Mass: 306 GSM
- Tensile Strength : 1502N/50mm
- Fabric: UV Stabilised HDPE
- Coating: UV Stabilised LDPE
- Colour: Blue(Other colours available on request.)

### ESTIMATING & SIZES

Canvacon 7000E is available in 2050mm x 50m Rolls.

### DISCLAIMER

Set-Up products are manufactured to the highest quality, and if used in the correct applications and in accordance with all directions, will produce quality and consistent results. However Allcon Group Pty Ltd accepts no responsibility for inappropriate usage or faulty workmanship by the end user.

Product: Canvacon 7000E
